EXPERIENCE

General Assembly | Web Developer

August 2016 - Oct 2016

Participated in 12-week, 600+ hour, immersive course covering full-stack web development, best coding practices, and project workflow. Built and deployed several full-stack web apps both individually and in collaboration with a team, including:

- *What's on Tap* - A mobile-first web app, developed collaboratively with a team, where users can see what beers are on tap at nearby bars. MEAN stack, Passport, BreweryDB API
- *Book of Recipes* - An app that lets users collect their favorite recipes and add personal notes. Separate servers used for the front-end and back-end. Ruby on Rails, Angular, Node.js, Postgresql, Express
- *Totally Righteous* - a web game that lets players practice their musical keyboard skills. JavaScript, jQuery, HTML, CSS
- *Diddy in Repose* - a crowdsourced collection of music videos where Diddy appears but does not perform music. Node.js, MongoDB, Express.js, jQuery
- *Drum Machine* - an angular online drum machine that uses TR-909 samples. AngularJS

Varsity Tutors | Private Tutor

August 2014 - Present

Tutored students - from elementary school to the postgraduate level - in various subjects including statistics, algebra, and history. Earned a perfect student rating of five stars out of five.

The Kindezi School O4W | Lead Teacher

August 2015 - January 2016

Planned and implemented lessons for 5th grade ELA and Social Studies. Helped majority of students achieve projected yearly progress in reading in first semester alone. Helped establish a successful and positive school culture in the opening year of a Title I charter school.

EDUCATION

Georgia State University
